## **6 Six monthly update and budget outturn 2012–13 (11.00–12.30)**

6.1 The Committee took evidence from the Minister for Economy, Science and Transport, Welsh Government. The Minister was supported by James Price, Director General, Economy, Science and Transport, Welsh Government and Rob Hunter, Director, Finance and Performance, Welsh Government

6.2 The Minister agreed to provide:

- details of the transfers made in the 2012–2013 transport budget and the basis on which the additional transport investments were prioritised;
- a collated summary of the breakdowns of the cost per job figures to show which type of business or financial support delivers the greatest return on investment and a note setting out how return on investment is assessed by the Department for EST (for example through the use of investment panels and WIDAB);
- a breakdown of how much of the £1.6million of efficiency savings in the delivery of the Superfast Cymru project were achieved by removing external consultancy fees;
- inclusion of the Programme for Government transport indicators within the Minister's next six-monthly update, with commentary summarising the impact of policy.

6.3 The Minister also agreed that the annual update for economy and science would clearly show, at action level, the jobs and investment induced outputs that were achieved in 2013–14, along with the expenditure associated with achieving those outputs. In light of the fact that jobs assisted are achieved with no Welsh Government expenditure, the Committee would appreciate it if the jobs outputs were broken down to show separately jobs created, safeguarded and assisted.
