2. Supports the development of a clean air plan for Wales to deliver improvements over and above legal compliance for all our citizens, including through:

b) improvements to local authority reporting on air quality issues in their areas and their plans to deal with them;

c) the establishment of a national air quality assessment and monitoring centre for Wales, to advise local and national government on the extent of poor air quality and the effectiveness of current and future actions;

d) the delivery of an on-going air quality campaign and other interventions to raise public awareness of poor air quality and to change behaviour.

3. Calls on the UK Government to back up its stated commitment of phasing out new petrol and diesel cars and vans by 2040 with a concrete set of milestones to

be achieved ahead of that date, accelerating the transition to zero emission road transport in the UK, and bringing forward the associated public health outcomes.
