6 Member Debate under Standing Order 11.21(iv) – Pancreatic Cancer

(60 mins)

NDM7191 [Lynne Neagle \(Torfaen\)](#)

To propose that the National Assembly for Wales:

1. Recognises that one in four people diagnosed with pancreatic cancer in the UK do not survive the disease beyond a month and three in four do not survive beyond a year, many because they were not treated quickly enough.
2. Recognises in Wales there are around 500 new cases of pancreatic cancers every year, and that, in 2015, some 508 people were diagnosed with pancreatic cancer and in the same year some 451 people died of the disease.

3. Recognises pancreatic cancer is the deadliest common cancer with a dismal prognosis that has hardly changed in the last 45 years.
4. Welcomes Pancreatic Cancer Awareness Month (November) and the work Pancreatic Cancer UK does to promote awareness around the lowest surviving and quickest killing cancer.
5. Calls on Welsh Government to take action to improve survival rates for people with pancreatic cancer in Wales through:
 - a) faster treatment, by learning from fast-track surgery models in England that have shown promising results;
 - b) earlier diagnosis, by learning from Rapid Diagnostic Centres being rolled out in England and piloted by Swansea Bay University Health Board and Cwm Taf Morgannwg University Health Board; and
 - c) holistic support, through timely dietary and nutritional support to enable patients to better tolerate treatment.

7 Welsh Conservatives Debate – Welsh Government Funding

(60 mins)

NDM7206 [Darren Millar \(Clwyd West\)](#)

To propose that the National Assembly for Wales:

1. Believes that Wales benefits from being part of the United Kingdom.

2. Notes that, as a result of the Fiscal Framework agreed between the Welsh and UK Governments, Wales currently receives £1.20 per head for every £1 spent per head in England on devolved matters.

3. Welcomes the additional £790 million over and above the Welsh block grant which has been committed by the UK Government towards Growth Deals across Wales.

4. Recognises that the funding available for the Welsh Government is at record levels.

5. Calls upon the Welsh Government to:

a) use any additional resources which arise as a result of increased investment on the NHS by the UK Government to improve the Welsh health service;

b) use any additional resources which arise as a result of increased investment on education by the UK Government to improve the Welsh education system;

c) rule out any tax rises or new taxes in Wales between now and the next elections to the National Assembly for Wales.

The following amendments have been tabled:

Amendment 1 – [Rhun ap Iorwerth \(Ynys Môn\)](#)

Delete all and replace with:

To propose that the National Assembly for Wales:

1. Believes that successive Westminster Governments – under both Labour and the Conservatives – have presided over intergenerational poverty and chronic underinvestment in Wales.

2. Believes that having the economic and fiscal levers of an independent country is the key to Wales's future economic prosperity.

[If Amendment 1 is agreed amendment 2 will be de-selected]

Amendment 2 – [Rebecca Evans \(Gower\)](#)

Delete all after point 1 and replace with:

Notes that the Welsh Government successfully negotiated a new needs based factor within the Barnett formula as part of the Fiscal Framework agreement with the UK Government.

Regrets that the UK Government often invests less than the Welsh Government in important non-devolved areas of responsibility across Wales including rail infrastructure and digital connectivity.

Notes that the UK Government's one year spending round leaves the Welsh Government £300m worse off in real terms compared with 2010-11 and condemns a decade of unjust, UK imposed austerity.

Notes that despite the pressures caused by austerity, the Country and Regional Analysis November 2019 statistics shows that in Wales:

- a) spending per person on health and social services was the highest of the four UK countries and 11 per cent higher than in England;
- b) spending per person on education was 6 per cent higher than spending per person in England.

Notes the Welsh Government's commitment to not increase Welsh rates of Income Tax during this Assembly term.

8 Brexit Party Debate – Lobbyist Register

(60 mins)

NDM7205 [Caroline Jones \(South Wales West\)](#)

To propose that the National Assembly for Wales:

1. Notes that the National Assembly for Wales is the only national legislature in the UK without a lobbyist register.
2. Believes that a lobbyist register would help to promote openness and transparency in Welsh politics.
3. Calls on the Welsh Government to consult immediately on implementing a lobbyist register for Wales.

The following amendment has been tabled:

Amendment 1 – [Darren Millar \(Clwyd West\)](#)

Delete points 2 and 3 and replace with:

Calls upon the Assembly Commission to provide an update on the action it has taken since the publication of the Standards of Conduct Committee report on lobbying published in January 2018.

Welcomes the intention of the Standards of Conduct Committee to give further consideration to lobbying prior to the end of the fifth Assembly.
