Dear Peredur,

I wish to update the Finance Committee on newly acquired evidence regarding the costs of implementing the Food Wales Bill (FWB).

The [Explanatory Memorandum](#) accompanying the FWB states '*assumptions have been made following liaison with Scottish Government officials who produced cost estimates for the Good Food Nation (Scotland) Bill.*' (para 331). Following my officials' regular communications with their counterparts in Scottish Government some more up-to-date estimates for the costs of implementing the FWB have come to light.

The cost estimates for comparable elements of the Good Food Nation (Scotland) Act 2022 have increased significantly compared to those which the Scottish Government originally anticipated when it was a Bill and which informed the FWB Explanatory Memorandum. This means the estimates quoted in the Explanatory Memorandum for the costs to the Welsh Government and public bodies in Wales of implementing the FWB, are certainly significant underestimates. I draw your attention to the table below which sets out the estimated costs taken directly from the FWB's Explanatory Memorandum and matched with the up to date costs which Scottish Government has now calculated.
