Dear

I can confirm that we provide both chemical analysis of substances and a visual drug identification tool and have done so for many years. These are two from a portfolio of drug analysis/drug identification services TICTAC provides. The full range of our services in this area can be seen here: <http://www.tictac.org.uk/products-services/>

Please do not hesitate to contact us should you have further questions or if we can be of assistance in any way.

Warm regards
