

**P-05-988 Give key worker children equal access to their schools and teachers,
Correspondence – Petitioner to Committee, 16.10.20**

I am very relieved to read that the children of essential workers would stay in their own schools in the event of school closure. I hope it means they will also be allowed in their classes as schools reopen.

Please pass on my thanks to the Petitions Committee for their support and persistence.

With best wishes
