

Lesley Griffiths AM
Cabinet Secretary for Energy, Planning and Rural Affairs

19 June 2018

Dear Lesley

The Sea Fishing (Miscellaneous Amendments) Regulations 2018

At our meeting on 11 June 2018, we considered The Sea Fishing (Miscellaneous Amendments) Regulations.

Our reports raises both technical and reporting points, which the Welsh Government subsequently addressed in its response. However, the response was not received until after the meeting on 11 June at which we agreed to write to you.

During our initial consideration we were disappointed to learn of the time it has taken to make amendments to the regulations. We also expressed disappointment that maps of sea areas had not been included in the Explanatory Memorandum in order to provide clarity and assist those accessing the regulations.

We note and welcome your response to our concerns and so take this opportunity to reinforce the importance of timely action to address important issues and also of clear Explanatory Memorandums to assist with the understanding of legislative provisions.

Yours sincerely

Mick Antoniw

Chair

Croesewir gohebiaeth yn Gymraeg neu Saesneg.
We welcome correspondence in Welsh or English.
