

Russell George AM
Chair, Economy, Infrastructure and Skills Committee
By email

26 June 2018

Dear Russell,

Forward work programme: areas of shared interest

The Children, Young People and Education Committee recently considered its forward work programme. Members agreed a number of priorities, two of which overlap with the Economy, Infrastructure and Skills (EIS) Committee's portfolio:

- Post-legislative scrutiny: Higher Education (Wales) Act 2015
- Pre-legislative scrutiny: TERCW and Reforming Post-Compulsory Education and Training (PCET)

In light of the Committee's existing commitments, it is unlikely that work on these areas will begin until spring/summer 2019. You will, however, be aware of the technical briefing on the PCET legislation that has been offered to us on 20 September 2018 and I look forward to welcoming any Members of EIS Committee who wish to attend.

Given our shared interest in these areas, I will ensure that the Committee Clerk provides regular updates to the Clerk of the EIS Committee and explores any viable opportunities for joint working, if appropriate.

Yours sincerely,

Lynne Neagle AM
Chair
